# Stable outlook supported by sound industry fundamentals

- Demand for data centre space underpinned by increasing cloud adoption, rapid digital transformation, data centre outsourcing and data sovereignty regulations

## Growing data requirements

- Strong growth in data creation, usage and requirements expected to continue.
- Driven by Internet of Things, and new technologies like 5G, Artificial Intelligence, Virtual Reality, driverless vehicles.

## Mission-critical infrastructure

- Data centre facilities support clients' critical day-to-day business operations, and/or meet regulatory and compliance requirements.

## Substantial relocation costs

- The need to replicate costly and high specifications set of IT services and data centre equipment for seamless relocation.
- Risk of downtime and business disruptions.

## Long lead time to develop data centres

- Technical expertise and intricate understanding of industry and clients' needs are required.
- Anchor clients or significant pre-let, on top of the necessary power, cooling and network connectivity, have to be secured before development.

## Scarcity of attractive sites

- Limited suitable sites with specialised data centre requirements:
  - Access to sufficient power and fibre connectivity
  - Minimal risk factors such as flooding or natural disasters

# Positioned for growth

- The Manager will continue to strengthen Keppel DC REIT's presence and position it to capitalise growth opportunities in the data centre industry

1. Certain clients have signed more than one colocation arrangement using multiple entities.

2. Based on respective independent valuations and respective ownership interests as at 31 Dec 2019, unless otherwise stated.

3. Purchase price includes rental support.

4. Keppel DC REIT has in place the isek Lease with the client of isek Data Centre. While the isek Lease is called a colocation arrangement, the terms are structured as effectively equivalent to a double-net lease.

5. This development is expected to be completed in 1H 2021 and is excluded from the portfolio's asset under management; Facility will be fully leased to Macquarie Telecom upon completion.

6. Keppel DC REIT, through its wholly-owned subsidiary has entered into the Ground Lease with Borchveste. With the Ground Lease in place, the lease with the underlying client becomes conceptually similar to a sub-lease, with Borchveste being (i) the leasehold client of KDCR Almere B.V. and (ii) the lessor to the underlying client.
