The information contained in this presentation is for information purposes only and does not constitute or form part of, and should not be construed as, any offer or invitation to sell or issue or any solicitation of any offer or invitation to purchase or subscribe for any units ("Units") in Keppel Infrastructure Trust ("KIT") or rights to purchase Units in Singapore, the United States or any other jurisdiction. This presentation is strictly confidential to the recipient, may not be reproduced, retransmitted or further distributed to the press or any other person, may not be reproduced in any form and may not be published, in whole or in part, for any purpose to any other person with the prior written consent of the Trustee-Manager (as defined hereinafter). This presentation should not, nor should anything contained in it, form the basis of, or be relied upon in any connection with any offer, contract, commitment or investment decision whatsoever and it does not constitute a recommendation regarding the Units.

The past performance of KIT is not necessarily indicative of its future performance. Certain statements made in this presentation may not be based on historical information or facts and may be "forward-looking" statements due to a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital availability, competition from similar businesses and governmental and public policy changes, and the continued availability of financing in the amounts and terms necessary to support future business. Such forward-looking statements speak only as of the date on which they are made and KIT does not undertake any obligation to update or revise any of them, whether as a result of new information, future events or otherwise. Accordingly, you should not place undue reliance on any forward-looking statements.

Prospective investors and unitholders of KIT ("Unitholders") are cautioned not to place undue reliance on these forward-looking statements, which are based on the current view of Keppel Infrastructure Fund Management Pte. Ltd. (as trustee-manager of KIT) ("Trustee-Manager") on future events. No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information, or opinions contained in this presentation. The information is subject to change without notice, its accuracy is not guaranteed, has not been independently verified and may not contain all material information concerning KIT. The information set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially. The value of Units and the income derived from them may fall as well as rise. Units are not obligations of, deposits in, or guaranteed by, KIT, the Trustee-Manager or any of its affiliates and/or subsidiaries. An investment in Units is subject to investment risks, including the possible loss of the principal amount invested.

Investors have no right to request the Trustee-Manager to redeem their Units while the Units are listed. It is intended that Unitholders may only deal in their Units through trading on Singapore Exchange Securities Trading Limited ("SGX-ST"). Listing of the Units on SGX-ST does not guarantee a liquid market for the Units.

Proposed acquisition of a leading waste platform in South Korea

Acquisition marks KIT's expansion into South Korea

- Jointly investing with Keppel entities to acquire Eco Management Korea (EMK), with KIT holding 52% majority interest
- EMK is a leading integrated waste management player in South Korea with diversified business operations across solid waste management (incl. incineration), liquid waste management and landfill

Key Terms of Proposed Acquisition		
Seller	IMM Investment and Korea Development Bank Private Equity	
Purchase Consideration	Total: KRW 626.1b (approx S\$666.1m ¹) KIT's interest: KRW 325.6b (approx S\$346.4m ¹)	
Proposed Funding	Combination of internal sources of funds, equity and/or debt capital market issuances and/or external borrowings	
Expected Completion	2H 2022, subject to condition precedents ²	

- 1. Based on an exchange rate of S\$1: KRW 940.
- 2. Including the consummation of the spin-off and transfer of all issued and outstanding equity interests in Shindaehan Refined Fuel Co., Ltd. (Shindaehan) and other related assets and liabilities to a new subsidiary of the Seller. Shindaehan is in the business of wastewater treatment and waste oil refining and will not be part of the Target Group to be acquired under the SPA.

EMK: South Korea's leading integrated waste platform

Defensive business backed by blue chip customers

Solid 3rd largest

incineration capacity in South Korea (404 tons/day)

Liquid Largest

waste oil refining player in South Korea (154 tons/day)

Landfill 4th largest

landfill capacity in South Korea, and 2nd largest in Yeongnam area

Solid

- Capable of treating both general and designated waste
- High treatment volume and unit price in Seoul Metropolitan
- The only integrated waste management platform capable of sludge drying

Liquid

- Major waste acid/alkali neutralization player
- Extensive customer base due to its location in Seoul Metropolitan Area

Landfill

- Commencement of business in Jan 2022
- Potential expansion in capacity

Key customers of EMK:

LG, Samsung, Coupang, K Water, KCC Glass Corporation, Hanil Cement, Korea Advanced Nano Fab Center, Korea Electronics Technology Institute, Cheongju City and Jincheon-Gun

EMK: Essential service provider with nationwide coverage

Strong presence in key regions including the Seoul Metropolitan Area and Yeongnam

Incineration facilities
in Seoul Metropolitan,
Chungcheong and Honam

Sludge dry facilities in Seoul Metropolitan, Chungcheong and Honam

in Yeongnam with remaining capacity of 1.5 million m³ (useful life of approx. 10 years)

EMK: Strong operational track record with best-in-class operations

Providing essential waste management services

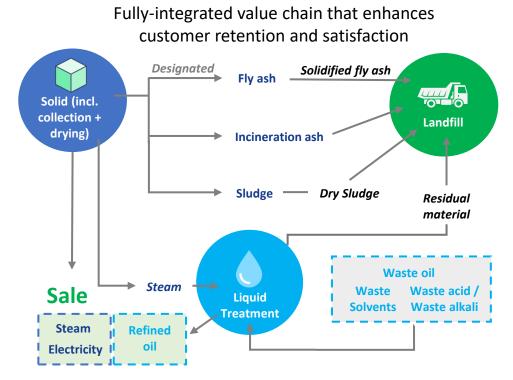

Strong Operational Track Record

95%

Availability

>340
operating days/annum in the past 3 years

Key investment highlights

Rare opportunity to acquire a waste management platform of scale in South Korea

1. Strategic expansion into a waste management market supported by strong tailwinds

2. High barriers of entry favouring incumbent players with scale

3. Draw on proprietary expertise across Keppel ecosystem to value-add and grow EMK

4. Accretive acquisition that strengthens portfolio resiliency and diversification

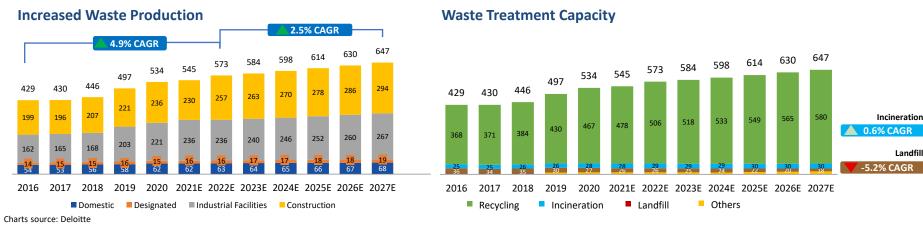

5. Supports KIT's ESG targets, contributing to the circular economy

Strategic expansion into a market supported by strong tailwinds

Supported by continued waste production and limited growth in incineration and landfill capacity

Supply Constraints	Demand Drivers	
Increasingly stringent regulations and difficulties obtaining new licenses	Waste production to grow at a CAGR of 2.5% from 2022 to 2027	Limited expansion in incineration and landfill capacity of 0.6% and -5.2% respectively from 2022 to 2027
Not in My Backyard phenomenon putting constraints on additional supply	Waste volume shielded from macroeconomic turbulence	Transition from government run to private due to growing government debt ratio
Landfill: Shutdown of public landfills in 2025	Incineration: Diaper waste reclassified from medical to industrial to grow volume	

High barriers of entry favouring incumbent players with scale

Sustainable competitive advantage creates favourable macro environment for existing players

- 1 Increasingly stringent environmental policies/regulations
- 2 Challenges in obtaining business/operating licenses
- Not in My Backyard phenomenon: waste management facilities are not welcomed by residents

- ✓ Strong operational expertise
- ✓ Strong funding capability
- ✓ Strong interface with multiple agencies at the national and regional levels
- ✓ Strong rapport with local community

Stringent environmental standards impose higher compliance requirements and costs that smaller players are unable to manage, benefiting incumbent players with scale

Solid

- More stringent regulations on the types and amounts of air pollutants emitted for new and expanding incinerator
- Limited new licenses granted since 2014

Liquid

- More stringent regulations and monitoring system for wastewater to reduce illegal discharge
- Delay in licensing process

Landfill

- Government's landfill reduction policy/regulation and monitoring of leachate treatment
- Local community consent is becoming a prerequisite

Leveraging proprietary expertise across the Keppel Group

Draw on the Group's development and operational track record to value add and grow EMK

Keppel Infrastructure

Proven and patented WTE technologies used in more than 100 facilities globally

Incineration capacity

>70,000

tonnes/day of solid waste treatment

- Developer, technology provider and operator of WTE plants globally
- Provides a complete suite of solid waste management solutions that suit the varying needs of customers.

Completed

>100

WTE projects globally

Keppel Infrastructure

Keppel Infrastructure Trust

- Capitalise on EMK's strong market position and industrial track record for capacity expansion
- Pursue bolt-on acquisitions

- Over a decade of track record in managing WTE and water treatment facilities: owns 2 WTE plants that treat ~40% of Singapore's incinerable waste
- Strong value creation for portfolio companies through organic and inorganic growth: successful execution of roll up strategy at Ixom, increasing utilization rate at Philippine Coastal

Keppel Asia Infrastructure Fund

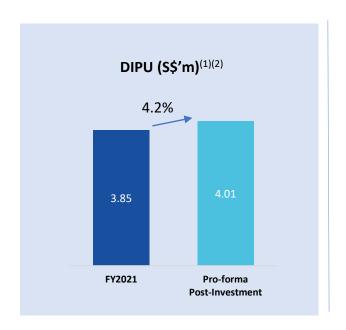

Provides growth capital to operating businesses and projects in the infrastructure space

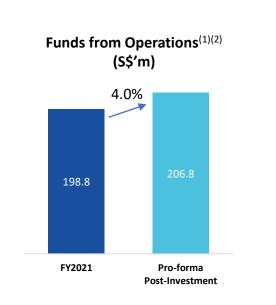

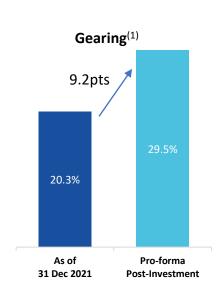

Accretive acquisition that strengthens portfolio resiliency

DIPU expected to increase by 4.2% from 3.85 cents for FY2021 to 4.01 cents

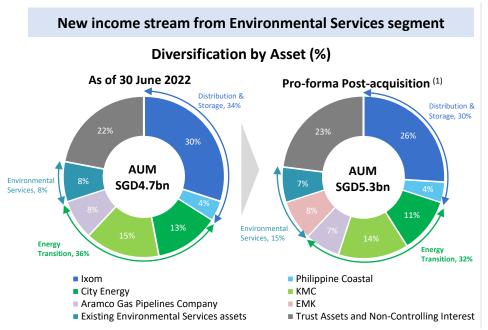

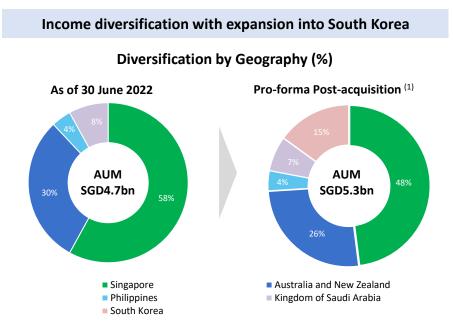

- 1. Pro-forma figures assume the estimated transaction expenses and KIT's investment is fully funded by existing free cash and debt facilities.
- 2. Includes adjustments to better reflect a normalized state of business operations in FY2021. Please refer to the SGXNet announcement for details.

Accretive acquisition that strengthens portfolio resiliency

Enhance KIT's income diversification with maiden acquisition in South Korea

- Growing Environmental Services segment from 8% to 15% of AUM as at 30 Jun 2022: key essential businesses and assets with defensive cash flows
- Expansion into South Korea, a key market identified for growth: Rated AA by international credit agencies

Note: Figures are as of 30 Jun 2022, unless otherwise stated.

On a proforma basis that KIT consolidates the financials of the Investor Holdco and EMK and its subsidiaries

Supports KIT's ESG targets, contributing to the circular economy

Waste management is an essential service for building sustainable and liveable cities

Critical
Component of
the Circular
Economy

Waste oil refining, waste acid / alkali neutralization, production of Waste Derived Fuel allows for recycling and reuse of essential raw materials

Energy generated from incineration plants also used for steam and heat supply to key customers

Solid waste incineration reduces volume of waste by up to 90%, ensuring the long-term sustainability of landfill

Essential Waste Treatment Infrastructure

Nationwide waste treatment platform with significant capacity held in all key regions, which serves as the backbone of the domestic economy

Leading market player compliant with tightening environmental regulations and standards
